

# REELS IN, CHAOS OUT

LAGROL reel storage and  
unwinding system

## Systematic reel storage.

With the LAGROL reel storage and unwinding system, you can store reels in an organized and systematic way. The time-consuming search for the right reel and transporting it back and forth is a thing of the past. This well-organized system ensures a smooth flow of material, allowing you to cut-to-length directly from the rack, both manually and by machine. Benefit from more than 60 years of German experience and quality.

## LAGROL Benefits.

Discover the versatility and efficiency of our LAGROL. We have a solution that saves you time, space and money. Find out more about the numerous benefits:

**1**

### Increased efficiency

More orders can be processed in less time with just one person

**2**

### Clear storage

Fast identification and reduced search times

**3**

### Flexibility and automation

Cut-to-length directly from the rack - manually and by machine

**4**

### Optimized use of space

Efficient use of space. Storing two reels per row is possible

**5**

### Protection against damage

Safe, assigned placement that prevents cable / reel damage

**6**

### Safe, comfortable working environment

Cut-to-length under control without overruns or risk of the reels falling out

**7**

### Reliable support

10-year guaranteed availability of spare parts and well-established customer service

## The perfect **match**.

The perfect interaction between the winding machine and the LAGROL creates a well thought-out and holistic solution for automated and efficient work. Our team of experts will be happy to advise you on our KABELMAT® winding machines.

## Also available in **small**.

The little brother of our LAGROL is our LAGBOI. We also offer you a convenient solution for storing coils and spools with our MATBOI and SPULBOI.
