

## STORAGE SYSTEMS

## We make more of your **able** store

---

An improved internal flow of material and goods requires best storage solutions. These solutions are based on the customer's requirement.

Kabelmat is your **partner for professional cable storage.**

Specific types and lengths of cable are often required at short notice. Kabelmat, as a **manufacturer of winding, measuring and warehouse systems** offers a wide product range that covers almost all requirements. All of our projects focus on an overall solution.

### Optimise storage space

Increase  
efficiency

Save  
time

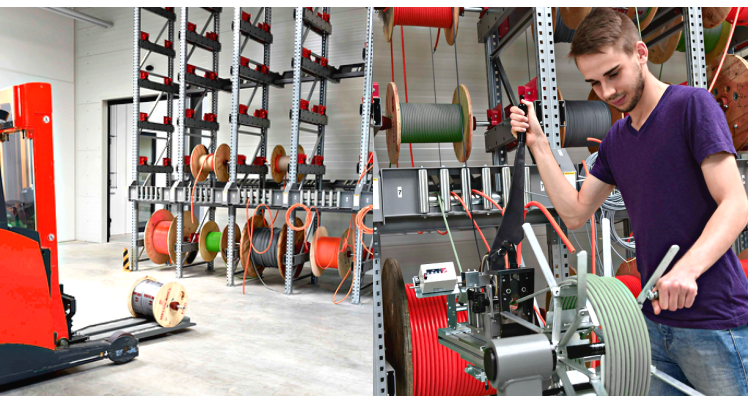

Reduce  
costs

# We provide complete systems

STORING, WINDING, MEASURING & CUTTING

## Your advantages at a glance:

- Overall solution from a single source (e. g. combination with a cable unwinder)
- Space-saving and save storage
- Storage of cable drums with different sizes and weights in one rack
- Outdoor cable drum rack
- Storage systems for cables, tubes and pipes
- Mobile storage systems
- Easy access
- Warehouse management software
- Accessory to transport and store cable drums
- Assembly service on request
- and much more
