KABELMAT® STORAGE SYSTEMS
BENEFITS

Your satisfaction is important to us

With just one person, more orders can be processed in less time

Quick identification and reduced search times thanks to organised storage

Direct cutting to length from the system without the need for complex back-and-forth transport

Efficient use of available storage space

Fixed assigned placement of winding material prevents damage

Safe cutting to length without risk of overrun or material falling out

10 years guaranteed spare parts availability and well-established customer service

More.

We produce almost every device and machine imaginable for processing and winding materials.
