# Winding, Measuring & Storing

## Store and wind cable - but with a system

**We offer the complete solution.**

A company of  
**HELUKABEL**

 **kabelmat**<sup>®</sup>  
easy winding. easy working.

## Creating organization - Our everyday business

Fig. 1 LAGROL

Whether cable drum racks, cable ring storages or unwinding systems are needed - Kabelmat provides the right solution for your cable storage.

In addition, with the LAGROL cable drum rack is also possible to unwind directly with a manual winder (e.g. MESSROL 1000) or mechanical winder (e.g. MOTROL 800 EASY).

## Strong helper - LAGBOI cable drum rack

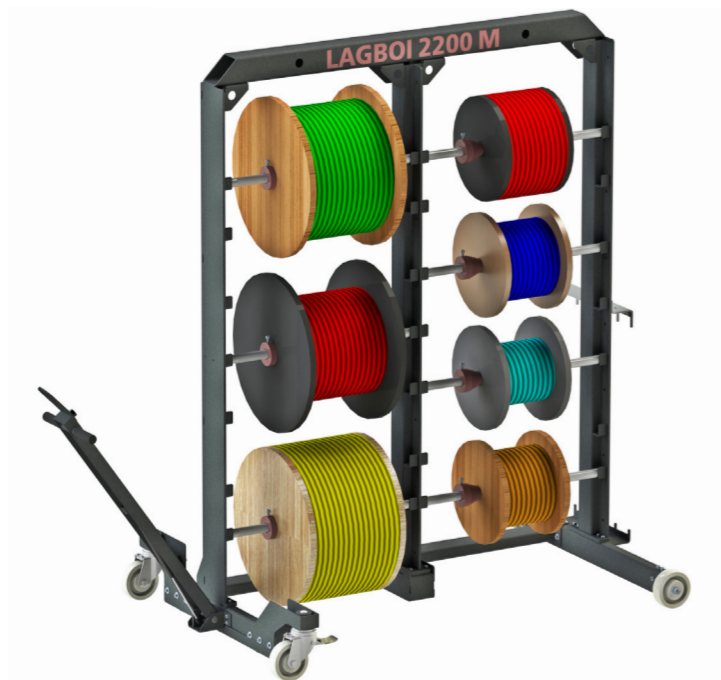

Fig. 2 LAGBOI 2200 M

With the new LAGBOI generation users can enjoy **further equipping possibilities and stability**. Additional holders also provide new ways to fit drums, allowing to greater flexibility.

The new LAGBOI generation is available in two sizes and our customers can choose between mobile and stationary version.

## Take it EASY - MOTROL 800 EASY

MOTROL 800 EASY is the well-priced **entry-level model in the machine sector**. The machine wind up cables, tubes, hoses, steel ropes, plastic profiles and many more materials onto rings or empty reels, whilst also measure and cut to length as required.

This winder is also available with conformity assessment.
